

Artroom News

March, 2018

Waves of Pride is coming!

In the next couple weeks the students are reviewing all of their artwork that they have created this school year. Each student will select their favorite work of art, mat and label them to be placed into the art show.

All K-4 artwork will be up on display in the high school's small gym on Tuesday, March 13th.

Check out these great projects!----->

The students did an excellent job finishing their art projects from India. I am really excited to see all of the bright colors and patterns come out in their work!

We will continue our Asian Culture Unit by switching to the countries of Japan and China.

The 3rd graders will be observing the famous Japanese printmaker Katsushika Hokusai. His most famous works involved capturing the image of Mount Fuji from different locations in Japan.

The 4th graders will be observing Chinese dragons and the significance they play in the culture.
